Stamina® AeroPilates®

Stand For Aero Pilates Four Cord Reformers

When you elevate your AeroPilates reformer, you are able to perform the more advanced movements. The elevation will also make it easier for you to move from exercise to exercise. The AeroPilates Stand is made specifically for the AeroPilates four cord reformers so your reformer will fit the stand solidly and your Pilates workouts will be stable. The AeroPilates Stand's six easy-to-remove pull pins allow you to assemble and disassemble your stand with ease. For three-corded AeroPilates reformers, use the 55-4050 AeroPilates Stand.

- Elevates reformer about 10 inches to allow for more advanced exercises
- Heavy-duty steel frame
- Easy to store
- Pull pins for easy assembly and disassembly
- Pull pins are attached to the stand with cords so they can't be misplaced
